## How it works

1. **Get in touch**
2. **We talk for 30 minutes**
3. **I send a fixed quote**
4. **I build your site**

I work with owner-run trades and home-service businesses around Richmond with 5 to 40 people, plus small practices. You'll deal with me from the first call to launch. I take on three builds at a time so I can give each one the attention it needs.

## No surprises

- ✓ Your price is fixed and in writing before I start. I quote anything new in writing first.
- ✓ A deposit gets things started. The last payment is due when the site is live and you've signed off.
- ✓ Your domain stays yours. The site and its words are yours once it's paid.
- ✓ You approve the homepage design before I build the rest.
- ✓ You get two full rounds of revisions, plus small fixes anytime before launch.
- ✓ For 30 days after launch, I fix anything broken for free.
